Hello Mr. Gibbons! How is Mrs Gibbons? It has been a very long time! I have been in Atlanta for quite a while now, but I keep up with what is going on in my Home Town, Memphis, Tennessee! I read your May 20-2018 Article in the Commercial Appeal Newspaper that was "Entitled NYC cut crime and grew, so can Memphis"! this and other documents that I am going to send you will bring you up -to-date about what I have about the Crime and Poverty situation in Memphis and what can be done about it right away! I called you because I need to tell you something that you can very easily do to remove the Historical Socially Divisive Obstacles that have Stood and Stand in the way of Removing Poverty and Crime out of Memphis/America, with no one to Blame or to Fault-It is Genrationally Inherited!

**Subject:** Proposal To Police Director Rallings

Michael Rallings  
Memphis Police Director  
Tjuana Holmes, Executive Assistant  
To Director Rallings  
[Tjuana.holmes@memphistn.gov](mailto:Tjuana.holmes@memphistn.gov)

Ms. Holmes, thank you kindly for directing us on how to reach Director Michael Rallings.

Director Rallings, please know that I put a call into your office on yesterday for the purpose of letting you know that the Bishop wants to talk with you about being on the board of the American Dream Initiative Model Memphis Plan and your staff, Tjuana Holmes firmly suggested that we send you a note and documentation on this Initiative. Here, this note is in response to her suggestion and documentation is attached.

Since I talked with her I have had a conference call with our Chief Basic Researcher, he is a graduate of the University of Memphis School of Law, 1969 and what we want you to know directly before we get to the concept of the American Dream and its board. What we want you to have is that we have the answer, the plan and the expertise to eradicate the source of gangs, homicides, crime, poverty, irrelevant education and the primary historical social crippling of ethnic divisiveness. And, succinctly, we want to say this to you, 'that in every seed of adversity there is a greater seed of benefit!'

Our proposal to you is about that benefit, and if you say yes to our proposal, we will have you set up in one month's time to access all the resources necessary to turn crime into prosperity which is the greater benefit that was previously mentioned. Our essential proposal to you is what we are about to say to you next: Please know that we have been looking for a Leader who happens to be a Police Officer so that we could acquire the authority of that police officer who has integrity with our word which is the same integrity that the Governor, Bill Haslam has with our word about our basic research expertise evidenced by him using our research to issue a 2011 Proclamation, making Memphis the Model City of Resurrection and Redemption! Frankly, he has invited everybody to join him with and in this grand opportunity in our times in Memphis, Shelby County and Tennessee. We are personally extending it to you on our word and his word.

In addition, we have acquired the complete support of the Jewish Community and the European American Community, respectively, Abe Waldauer, Reginald Wurtztberger, Steve Cohen & Pitt Hyde (an early on contributor to our research efforts) and Fred Smith with time and money. What we need from you is your authority to use our research whereas, the children have undoubtedly shown us that we must solve the problem of the massive excruciating occurrence of crime at the root! We will send you (some background info in this area) as a matter of fact we have briefed LaTanya Able, as the Chief Researcher grew up in North Memphis with her father.

However, in the final analysis, a meeting of the minds with you about authority is critical in order that we are on the same page to operate and achieve resolution about solving crime at the root. Clearly, you have authority to acquire new tools for solving crime relative to physical tools, i.e., cars, guns, office technology like computers, cameras, software, etc. and just as you have this implicit authority to acquire new physical tools for police officers to abate crime implicitly you also have the authority to acquire new psychosocial technology tools, in other words, authority that goes with the job, you are in position to acquire, learn and use these new tools. These tools are psychosocial tools as the governor extended the use of the 2007 Memphis City Council Resolution (attached) to get at the psychosocial research reasoning for extending this Resolution to create his 2011 Proclamation that solidifies the primary resolve for solving crime at the root. You don't have to be the scientist to learn how to use the psychosocial tools that will be made available to you as you and your law enforcement staffing but you will all be trained via the new technology in using these new psychosocial tools. Your training will be the first in the nation and then and only then you will have created a model position for your organization to be the model in the model city for solving crime at the root!

Please be mindful that we are not trying to make you be a scientist just learn what the scientist brings which is learning how to use social tools like you do physical tools and you will be creating a model that can be used all over the United States and the world! This can all be done by attaching a new office of Innovation within your office.

Ultimately to contact you now is that the Bishop wants to talk with you about the board and its membership as the purpose of the Board is to put life into, ground and institutionalize Governor Haslam's Proclamation for the City of Memphis to be the Model American City, and the State of Tennessee to be the Model State in the American Union. This board will raise the bar for the implementation of solving crime at the root!

P.S. Additional attachments are forthcoming as we would like for you to digest what is in this email first.

Apostle Dr. Dayo, National Deputy Officer  
to the American Dream National Director and  
Chief Researcher and Administrative Team  
"Creating the Certainty of Social & Financial Wealth"
